

ANCO-Eaglin Inc, the oldest equipment supplier serving the food and by-products industry, since 1902.

A rapidly growing International equipment supplier and engineering firm, which designs and manufactures equipment for the food and by-products industry, seeks qualified **Millwright**.

Must have processing experience, especially in the rendering, food processing, or protein recovery industry and willing to travel domestically and internationally up-to 40-60% of the time.

The successful candidate supervises, installs, and repairs machinery and equipment according to layout plans, blueprints, and drawings in an industrial environment using hoists, lift trucks, hand tools and power tools. Will assemble, install, and align equipment such as shafting and conveyors using squares, rules, micrometers, and plumb bobs.

MIG, TIG, and SMAW experience a must. Ability to operate engine lathe or milling machines to grind, file, and turn machine parts to dimensional specifications.

Excellent customer service, communications, be flexible and creative, good general computer skills, and be able to travel are required.

PLC programming and bilingual (English and Spanish) is a plus.

Duties Include:

Equipment assembly, installation, and align equipment such as shafting and conveyors using squares, rules, micrometers, and plumb bobs.

We offer a competitive salary based on industry experience and relative qualifications. Company paid health benefits, performance bonuses, vacation, paid holidays, and available 401K.
